Theory of mind is an important social-cognitive skill that involves the ability to think about mental states, both your own and those of others. It encompasses the ability to attribute mental states, including emotions, desires, beliefs, and knowledge. Not only does the theory of mind involve thinking about thinking, but it also refers to the ability to understand that other people's ...

How the Theory of Mind Helps Us Understand Others

A theory of change is a tool to help you describe the need you are trying to address, the changes you want to make (your outcomes), and what you plan to do (your activities). The approach can be used for organisations of all shapes and sizes —from service-delivery charities, to campaigning organisations, to funders.
