Terms in this set (10) controlled experiment. An experiment in which only one variable is tested at a time. Fact. something that can be proven to be true.

Conceptual Integrated Science: Chapter 1 Review Flashcards ...

Conceptual Integrated Science science is “integrated” in that the fields of science are blended together where appropriate. For example, in describing the physics of light, we show how this applies to the inner workings of our eyes, which, in turn, are sensitive to visible light in great part because of the chemical composition of our atmosphere.
