Makassar is East Indonesia's largest city with a population of 1.44 million people. It is one of the country's busiest hubs connecting Sumatra, Java, Bali, and Kalimantan in the West and Sulawesi and Papua in the East. The city benefits from its strategic location and has been propelled by strong wholesale and retail trade.

Indonesia's second-tier cities on the move - Asiagreen
Hsieh and Moretti's paper, which is widely cited in policy circles, uses a model from macroeconomics in which wages fall as population rises in each metropolitan area ("metro"). It finds that deregulating land use in the three most productive metros (New York, San Francisco, and San Jose) leads to a national 8.9 percent increase in output.
