Zerostart Engine Block Heaters For All Engine Applications ...

The two main cause of no start on a mbe4000 are. 1: the fuel filter is not well seated in the fuel filter housing (when they made the last oil and filter change... we get those A LOT!!!)if you remove the filter you can see its croaked a bit! 2 : is the fuel galery check valve (number 5 on the drawing)

hope this helps.

MBE 4000 no start without ether - MHH AUTO - Page 4

Standard equipment on an MBE 4000 engine includes a constant-throttle-valve compression brake and an exhaust brake. The constant throttle valve is a hydraulically activated, dedicated fifth valve in the cylinder head that opens at the top of the compression stroke, venting the compressed air into the exhaust manifold prior to the downstroke.
