Ford Engines - Ford Kent Crossflow engine (1959-1984)

However, Ford ended up installing the Crossflow engine into the Fiesta anyway, when the market demanded a 1.3-liter capacity, and later a 1.6-liter version for the North American market models. Most Americans got their first taste of the Kent engine in Ford's captive import the Cortina, and some in the 1600cc base version of the Mercury Capri.

A total of 3513 were built by March 1982. Fiat Twin-Cam engine

Morgan 4/4 - Wikipedia

You could argue that a Kent engine is a Kent engine whether in Crossflow or Pre-Crossflow form, but if you're after period correctness then the later engine doesn't really look right. The issue is, if you want lots of performance, the Pre-Crossflow's maximum standard capacity is a mere 1498cc, or 1558cc if you use a Lotus configuration.

How to build a hybrid Pre-Crossflow motor | Classic Ford ...

All above figures from Burton Power on Kent 1600 engine. Ford Pushrod Engines: The Facts. Block: Cast iron with three or five mains bearings. Cylinder head: Cast iron, four inlet/four exhaust ports. Crossflow, with bowl-in-piston combustion chamber with Kent series engines from 1968.
