Applying by brush. Use the largest brush possible. Long flexible bristles are best for gloss paints. When applying by brush a good technique is the 'Criss-Cross' method. Paint is applied to the surface with a diagonal brushing action from the left and right (1). This is then spread further with horizontal strokes (2) before finally 'laying off' with light vertical strokes (3).

Brightside Polyurethane marine paint is a hard-finish, high gloss, one-part application polyurethane topside finish. This paint offers excellent application characteristics that result in a "sprayed on" appearance when brush-applied in thin coats and is recommended for application on surfaces above the true waterline.

Interlux Brightside Polyurethane Paint | Wholesale Marine

Infrequently used boats may want to use a modified epoxy paint that will have good antifouling properties when the boat is inactive. If you keep your boat in the water year round you are most likely a candidate for a high-copper-content modified epoxy paint that prevents growth by leaching biocides upon contact with water.
