Migration : changing the world (eBook, 2012) [WorldCat.org]

Migration itself is not a solution to global inequality; it is a symptom of it. Resolving the larger problem of extreme poverty will require generations of concerted domestic effort and international support, rather than the mass departure of these countries’ most capable and dissatisfied citizens.

Migration: Changing the World by Guy Arnold

Human migration involves the movement of people from one place to another with intentions of settling, permanently or temporarily, at a new location (geographic region). The movement often occurs over long distances and from one country to another, but internal migration (within a single country) is also possible; indeed, this is the dominant form of human migration globally.

Human migration - Wikipedia

Climate change is now driving mass migration, which will only worsen unless governments take global heating seriously. LONDON, 15 September, 2020 –There is strong evidence that deteriorating environments caused by climate change are driving millions of people to resort to mass migration in their search for a better life, both within countries and across borders.
