Scope Limitations And Delimitations

Difference Between Delimitations and Limitations Delimitations refer to the boundaries of the research study, based on the researcher's decision of what to include and what to exclude. They narrow your study to make it more manageable and relevant to what you are trying to prove. Limitations relate to the validity and reliability of the study.

Scope and Delimitations - Explained & Example | DiscoverPhDs

Delimitations The delimitations of a study are those characteristics that arise from limitations in the scope of the study (defining the boundaries) and by the conscious exclusionary and inclusionary decisions made during the development of the study plan.
