usage), OAPs (British usage which stands for Old Age Pensioner), seniors (American usage), senior citizens (American usage), older adults (in the social sciences), and the elders (in many cultures ...

Old age - Wikipedia

Old comes from the Old English *ald* and *eald*, and all of these words have the same meaning ("aged".. Old escaped the i-umlaut, so it retained the back vowel and didn't become "eld".

However, the comparative *elder* and superlative *eldest* underwent the i-umlaut, resulting in the front vowel in each.. *Elderly* is the adjectival form derived from the noun, and means something similar to "elderish ...

word choice - Difference between the elderly and the old ...

Fatigue or tiredness is one of the most common complaints expressed by the elderly. In most cases it is due to insufficient rest and reduced stamina associated with aging. This is one of the reasons why older people often need to sleep for longer periods, have more frequent rest breaks when physically taxed and are generally less active than younger adults. However, age does not bring about a ...

Fatigue (Tiredness) in the Elderly | SeniorHealth365.com

Old age has a dual definition. It is the last stage in the life processes of an individual, and it is an age group or generation comprising a segment of the oldest members of a population. The social aspects of old age are influenced by the relationship of the physiological effects of aging and the collective experiences and shared values of that generation to the particular organization of ...
