The main bioethical issues associated with human stem cells involve their derivation and use for research. Although there are interesting ethical issues surrounding the collection and use of somatic (adult) stem cells from aborted fetuses and umbilical cord blood, the most intense controversy to date has focused on the source of human embryonic stem (hES) cells.

Medical law exists at the intersection between consequentialism and deontology. Much of medical law is consequentialist in nature. However, having evolved from a set of Christian values and principles, it retains certain deontological characteristics. In particular, it retains a commitment in many jurisdictions to the Sanctity of Life Doctrine ...

pay attention, O foundations of the earth! For the LORD has a plea against his people, and he enters into trial with Israel. O my people, what have I done to you, or how have I wearied you? Answer me! For I brought you up from the land of Egypt, from the place of slavery I released you; and I sent before you Moses, Aaron, and Miriam.

This set Christianity on firmer intellectual foundations. Clement also worked to clarify the early creeds of Christianity, using philosophical notions of substance, being, and person, in order to combat heresies. c. St. Augustine. Augustine emerged in the late fourth century as a rigorous defender of the Christian faith. He responded forcefully to pagans' allegations that Christian beliefs ...
