The Social Construction of American Realism, Kaplan

Speaking very roughly, the concept of social construction is in play with regard to race whenever beliefs about biological race are dissolved or beliefs about the psyches, character traits, and cultures of different races are shown to be false.

Social Construction and Racial Identities - Oxford Handbooks

Social constructs can be different based on the society and the events surrounding the time period in which they exist. An example of a social construct is money or the concept of currency, as people in society have agreed to give it importance/value. Another example of a social construction is the concept of self/self-identity.

Social constructionism - Wikipedia

The social construction of "race" in the United States was constructed by the power to help create dichotomies between Whites and Blacks to show some form of inferiority and superiority. A social...

The social construction of "RACE" in the United States ...

Race is a human-invented, shorthand term used to describe and categorize people into various social groups based on characteristics like skin color, physical features, and genetic heredity. Race, while not a valid biological concept, is a real social construction that gives or denies benefits and privileges. American society developed the notion of race early in its formation to justify its new economic system of capitalism, which depended on the institution of forced labor, especially the ...

Historical Foundations of Race | National Museum of ...

Again, race is a social construction, where societies generate informal or formal rules about what we see (i.e., perception) and how to act and treat others (i.e., discrimination). Scientists...

Race as a Social Construction | Psychology Today

Here's where the idea of social construction comes back in. Although we have refuted any biological basis of race, it remains a powerful ideology. The idea that races are different is deeply...

Home | Construction Management Association of America

Social structure is the organized set of social institutions and patterns of institutionalized relationships that together compose society. Social structure is both a product of social interaction and directly determines it. Social structures are not immediately visible to the untrained observer, however, they are always present and affect all dimensions of human experience in society.

Social Structure: Definition and Overview in Sociology

The social construction of target populations refers to the cultural characterizations or popular images of the persons or groups whose behavior and well-being are affected by public policy.

Social Construction of Target Populations: Implications ...

The discourse of whites and American Indians thus reflects the existence of separate symbolic-moral universes. This investigation redirects attention from the traditional focus on the incidence and etiology of alcohol abuse among American Indians to the politics surrounding the definition and interpretation of the deviant behavior.

THE SOCIAL CONSTRUCTION OF AMERICAN INDIAN DRINKING ...

Much of the theorizing on American race relations in America is expressed in binary terms of black and white. Historically, the study of American race relations typically problematizes the "othered" status, that is, the non-white status in America's racial hierarchy.

The Social Construction of Whiteness: Racism by Intent ...

The theory of social constructionism states that meaning and knowledge are socially created. Social constructionists believe that things that are generally viewed as natural or normal in society, such as understandings of gender, race, class, and disability, are socially constructed, and consequently aren't an accurate reflection of reality.
