The Urban Political Economy And

Urban political economy emerged as a critique of the urban ecology paradigm, particularly the latter's explanation for the growth and structure of cities and regions. By emphasizing the spatial competition for resources by individuals, groups, and institutions, urban ecology has viewed political hierarchies, economic actors and laws, and other social institutions as expressions of more fundamental and pre conscious forces.

Political Economy Definition

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth. As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word ...
